

Allen's Automotive Inc. is introducing a full line of Lucas Oil products. From Racing lubricants to gun oil and everything in between. In store or online be sure to check out all of the made in America lucas oil products.

Featuring 20w-50 SAE semi-synthetic blend racing motor oil a better and cheaper alternative to Penn Grade motor oil. Also premium L9 synthetic gear oil formulated for quick change rear ends. For the ford 9" rear-ends lucas offers 80w-90 gear oil at competitive pricing and reliability. Don't neglect your race cars wheel bearing, ball joints, tie rods, and more... try Lucas X'Tra Heavy Duty Grease. Designed for agriculture but the racers choice virtually wash out proof, great through all temperature ranges, and does not attract dust/dirt.

The Allen's Automotive house car featured to the left using lucas oil products listed below.
